### 1. New Genesis Angel

The beauty of this world is often created by those like angel who take the first step forward!

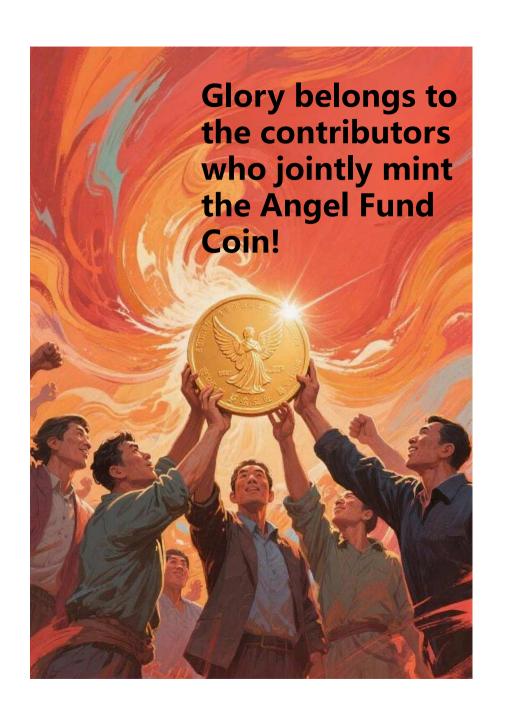

In a certain country, there is a social organization of a certain ethnic group that provides free education, work, life, business and other assistance to new immigrants of that ethnic group. If the new immigrant successfully finds a job or starts a business, they will donate about 10% of their annual income to this organization. Individuals can receive better tax exemptions, and this organization can receive a continuous stream of funds to serve more new immigrants of that ethnic group.

# Based on similar ideas, Angel Fund Coin was born!

The issuer will use all the angel fund coins sold to support the world's cutting-edge and responsible entrepreneurial teams, but will not hold equity in the entrepreneurial teams because traditional valuation, complex due diligence, and equity negotiations often reduce efficiency, increase waste, hinder innovation, and may even bury the genius who leads the world. There may be multiple entrepreneurial teams, and their projects focus on industry collaboration cloud digital systems, humanoid intelligent robots, AI, Web3, etc. that are at the forefront of the industry trend.

The entrepreneurial team unconditionally, voluntarily and conscientiously distributes a portion of the annual project profits (usually 1-10%) to angel fund coin investors as dividends. Investors do not hold equity in the invested project, but they receive a special right to the invested project. The value of this right will continue to increase, it can be transferred, and there will be continuous dividends.

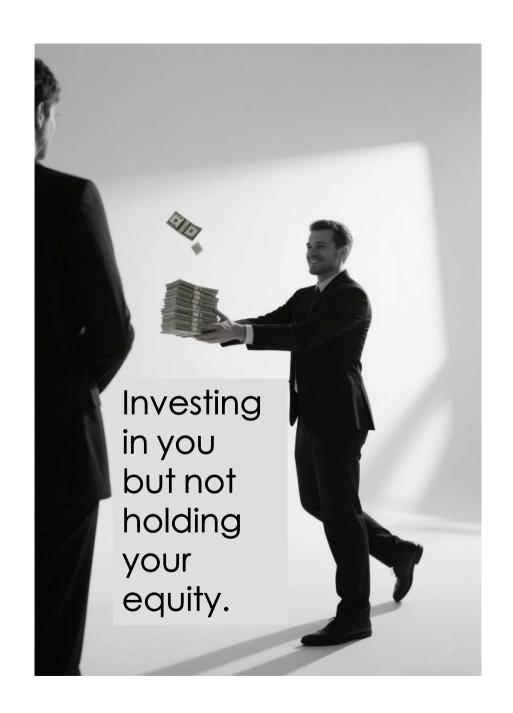

### 2. Mission and Objectives

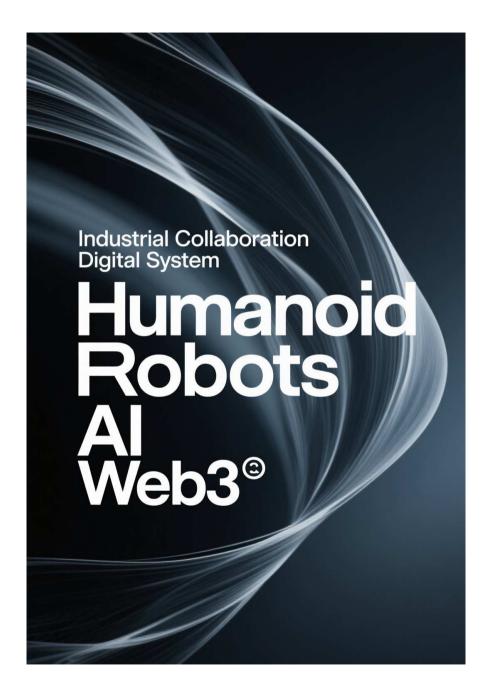

The <u>mission</u> is to gather a large number of Genesis "angels" in the world, transforming the old investment model into "<u>investing in you but not holding your equity</u>", creating more efficient and decentralized unique win-win social value, humanistic value, technological value, and economic value!

### The objectives include:

- (1) To establish a distributed community of Genesis angels with a shared belief worldwide.
- (2) To create <u>Angel Fund Coin, a new distinct</u> <u>cryptocurrency</u>, essentially forms one of the best and largest angel investment funds in the world.
- (3) To <u>lead the investment revolution</u>, significantly promoting technological innovation, financial innovation, and social innovation that are at the forefront of industries that can change the world.

"When runes become faith and consensus, this is the strongest moat!"

Entrepreneurs return 1-10% of project profits annually to all angel fund coin investors as dividends

### 3. Approach

- (1) Design Angel Fund Coin, <u>a new and unique</u> <u>cryptocurrency</u>, and establish an English and Chinese <u>official website</u> to announce it globally.
- (2) Establish a co-founder mechanism where <u>all</u> individuals involved in issuing and triggering mintage <u>are co-founders of Angel Fund Coins</u>. According to the voluntary principle, the official website of Angel Fund Coin will promptly promote the deeds of the cofounders. Angel fund coins can be established without private equity investors in the initial stage, and the actual private equity investors can also be cofounders.

- (3) Establish a coinage quantity mechanism for angel fund coins, where the total quantity of angel fund coins is determined by the sum of the coinage quantities of each co-founder.
- (4) Establish a mechanism for minting, selling, and investing angel fund coins triggered by the cofounder. All proceeds from the sale of the angel fund coins will be unconditionally and "non equity" invested in entrepreneurs in popular fields such as industrial collaboration cloud digital systems, humanoid intelligent robots, AI, Web3, etc. These entrepreneurs can reasonably include the cofounders of the angel fund coins themselves. Cofounders' angel fund coin wallet address must be unconditionally monitored.

(5) Establish a linkage mechanism between angel fund coins and the business model in the Web2 field.

Co founders can design, plan, and implement a reasonable business model based on their clients, consumers, suppliers, employees, and other stakeholders in the Web2 field while selling their minted coins. For example, in some countries or regions, investors are encouraged to receive some consumable products without additional pay for every \$1 invested in angel fund coins. These products may include health products, lifestyle products, etc.

- (6) Establish a mechanism for the withdrawal of cofounders. If the co-founder fails to use all the funds from the angel fund for dedication after liquidation, their status as a co-founder will be automatically revoked.
- (7) Establish a mechanism for alternate co-founders. Angel Fund Coin investors who fail to become cofounders can become alternate co-founders, as long as they invest a portion of their liquidated proceeds in entrepreneurs in hot fields such as the industrial collaboration cloud digital system, humanoid intelligent robots, AI, and Web3, without occupying equity positions. These entrepreneurs can reasonably include the Angel Fund Coin co-founders themselves.

(8) Establish a dividend return mechanism for invested projects, where entrepreneurial teams supported by "investing in you but not holding your equity" unconditionally, voluntarily, and consciously return 1-10% of project profits annually to all investors of angel fund coins for dividends.

### 1. 新创世天使

<u>这个世界的美好往往是由像天使一样先迈出一步的人创造</u> 的!

在某个国家有这样一个某民族的社会组织,其为该民族新移民提供免费的教育、工作、生活、生意等各方面帮助,该新移民若成功找到工作或创业成功,则将每年收入的约10%捐给这个组织,个人可以获得较好的税务减免,这个组织可以得到源源不断的资金从而可为更多该民族的新移民服务。

基于类似思想,天使基金币诞生了! 发行者将卖掉的天使基 金币全部用于支持世界上有担当的前沿创业团队,但不占 有创业团队的股权因为传统的价值评估、复杂的尽调和股 权谈判往往降低了效率、增加了浪费和阻碍了创新,甚至 可能埋没了引领世界的天才。创业团队可能有多个,他们 的项目聚焦于处于行业风口的产业协作云数字化系统、具 身智能机器人、AI、Web3等。创业团队无条件地、自愿、 自觉将每年项目利润的一部分(通常为1-10%)给天使基金 币投资者进行分红。投资者不占被投资项目股权但却得到 了被投资项目的一种特殊权利,这种权利的价值会不断增 长,可讲行转让,且有持续的分红。

## 2. 使命和目标

- (3) 建立天使基金币的铸币数量机制,天使基金币的<u>总数</u>量由每一个联合创始人铸币的数量之和决定。

- (4)建立铸币、销售和投资机制,联合创始人触发铸造的天使基金币在卖掉后的全部收益无条件、"不占股权"地投资给产业协作云数字化系统、具身智能机器人、AI、Web3等风口领域的创业家,这些创业家可以合情合理地包含天使基金币联合创始人自己。联合创始人的天使基金币钱包地址必须无条件地接受监控。
- (5) 建立天使基金币与Web2领域商业模式联动机制,联合创始人在出售自己铸造的币的同时,可以结合自己所从事的Web2领域的客户、消费者、供应商、员工等进行合情合理的商业模式设计、规划和实施。例如在部分国家或地区,投资者被鼓励每投1美元购买天使基金币,将获赠一些可消费的产品。这些产品可能包括保健产品、生活品等。

- (6) 建立联合创始人退出机制,只要不能做到天使基金币变现后全部用于奉献,则该联合创始人身份自动取消。
- (7) 建立候补联合创始人机制,未能成为联合创始人的天使基金币投资者可以成为候补联合创始人,只要将变现后的部分收益"不占股权"地投资给产业协作云数字化系统、具身智能机器人、AI、Web3等风口领域的创业家,这些创业家可以合情合理地包含天使基金币联合创始人自己。
- (8) 建立被投资项目的分红回报机制,被"投资你但不占你股权"支持的创业团队<u>无条件、自愿和自觉地每年将项目利润的1-10%</u>回报给天使基金币所有投资者进行分红。
